ASSIGNMENT FOR SEMESTER END EXAMINATION, SPRING 2026

Course Name- FUNDAMENTALS OF DISASTERS MANAGEMENT

Course Code- DIPEVMD 104

Full Marks= 30

Answer the Following Questions:

2×15=30

1. Explain the method of disaster risk assessment of any hazard prone area or system. Make a case study on your own village / town to estimate disaster risk based on hazard and vulnerability analysis.
2. What are the possible scopes and major constraints for prevention of disaster in any hazard prone area? How can the vulnerable communities of flood prone areas cope with flood hazard by adopting alternative adjustment process?

NB: All questions as per instruction are to be mandatorily attempted.
