ASSIGNMENT FOR SEMESTER END EXAMINATION, SPRING 2026

Course Name- TELEVISION PRODUCTION

Course Code- MMC 303

Full Marks= 30

Answer the Following Questions:

2×15=30

1. 'Television production is a collaborative art that combines technology, creativity, and management.' Discuss this statement by analysing the roles of production crew members, studio setup, and multi-camera production techniques in contemporary television programs.
2. Discuss the different types of video editing used in television production. How is Artificial Intelligence (AI) transforming video editing practices in contemporary media industries?

NB: All questions as per instruction are to be mandatorily attempted.
